wedding Packages and Pricing guide

freely being

real images for radiant souls

LET'S *be who* WE ARE, *freely.*

It's not about the flowers. It's not about the perfect outfit, or the right music.

It's about you and your love.

Because your wedding day isn't really about all that other stuff that so often is worried about, it's about capturing you as your truest self on the most important day of your life.

So cast off the boxes to be checked and instead enjoy the radiant, unique, one of a kind, beings that you are. Let's BE so freely that the truest expression of yourself can't help but bubble up from your soul.

All you gotta' do is show up and be yourself, freely.

A Bit About Anna...

I'm a lover of life's simple things. Warm coffee from a favorite mug, a cozy sweater, a good smelling candle, the sound of rain outside my window, sharing a glass of wine with my favorite people.

These simple things make me, ME. And that's really what defines who we are right? The simple things. That's what I'm all about, capturing YOUR simple things. Because the truest expression of ourselves isn't a made up, fake version we put on, but the little stuff we do and enjoy that truly reflects our soul.

ENGAGEMENT *Sessions*

Engagement sessions are an amazing time for you and your partner to take a step back from all the craziness of planning your nuptials and just enjoy some time with each other. Your session will feel more like a date than an appointment with me to take pictures, which is why we get to do whatever sounds relaxing and fun to you! It's also a great time to get cozy comfy with me and my camera and maybe try out an amazing outfit or trial run your make up before your wedding day!

So let's grab some bubbly, take a hike, bring your pup, whatever is fun, whatever is YOU...let's do that thing.

Second photographers are a super great addition to any wedding package because they allow your story to be told even more fully and personally.

Those sweet glances between you and your partner, the quiet tears of joy, that brief moment with loved ones and family members, those moments are what imprint on your heart and with the help of a second shooter can be captured even amidst the craziness of your wedding day.

It also allows for those BIG moments to be more fully documented as well! A second photographer is a wonderful way for you and your lover to rest easy knowing your story will be told in an intimate and personal way that you can look back on and relive for years to come.

Why WEDDING ALBUMS *and prints?*

Prints and albums, to me, are like fresh baked molasses cookies. That smell of dark molasses, flour and vanilla never fails to remind me of my Grandmas house and the times I spent devouring cookies she made, but more importantly it reminds me of a time I spent with loved ones.

Prints are the same way. They reopen a space in our mind that we might have forgotten or has faded with time, and reignite the memories and love we felt during those moments.

Having prints made of your most cherished memories is truly the final step in preserving and keeping vibrant the memories you've had. Using acid free matte paper and archival ink in our albums and prints, these moments truly will last a lifetime sitting on your coffee table or hanging on your wall.

Multiple binding, embossing, and color options, allows you to choose what truly speaks to your character and will be the best stage to present your life's greatest moments.
